

BAGASSE

DUURZAAM

Composteerbare bagasse is een mooi voorbeeld van upcycling. Het wordt vervaardigd van overtollig, natuurlijk materiaal dat afkomstig is uit de productie van suiker: stengels van suikerriet. Het is kant-en-klaar biologisch afbreekbaar onder gecontroleerde composteersomstandigheden. Tijdens het composteren verandert het binnen een paar weken in aarde.

Ook RPET is een duurzaam alternatief. Dit materiaal is vervaardigd uit gerecyclede plastic flessen, die anders terecht zouden komen op een afvalberg of zouden worden verbrand.

Daarom brengen wij u graag onze Bagasse serie onder de aandacht:

Bagasse artikelen gemaakt uit Suikerriet, **max +100°C** (microwarmable)
De bijbehorende kristalheldere RPET deksels zijn vervaardigd uit 100% gerecycled materiaal, **max +70°C**.

BAGASSE BOWLS

Bowls Bagasse brown 600ml

Box quantity: 480 Pcs

Pallet quantity: 15 boxes

Bowls Bagasse brown 900ml

Box quantity: 160 Pcs
