

BE PULP & Recycled PET

Choose
Sabert

 **Sabert**[®]
makes food look great

*Yves,
organic chain franchisee*

These days, it's impossible to ignore environmental considerations. I chose the BePulp range because I wanted to work with a company that shared my own values. Sabert has a long-standing tradition of sustainability at every level of the business, from the raw materials it uses to the way in which it runs its facilities.

**Choose Sabert
for its commitment
to sustainability.**

Sabert, makes food look great

Recycling

The environment is one of our core concerns. We use recycled PET, sort 100% of our own production waste, and use solar panels and LED lighting at all our sites. Our BePulp range of alternative products is made from pulp of plant origin - a natural and renewable material.

SQUARE "SLOPE" BOWL

This bowl features a transparent, bevelled lid, offering a clear view of the contents when placed on the shelf in an organic delicatessen.

PUL14224 + DOM54224

SUSTAINABLE SOLUTIONS

In order to respond to the increased demand for solutions with greater respect for the environment, we have designed the BePulp brand, a range of innovative products of plant origin, natural materials which are both abundant and renewable. Plates, cups, containers or bowls: the range offers many very practical options all of which can significantly reduce your carbon footprint. The entire range is certified for composting according to regulation EN 13 432.

SUSTAINABLE

Our containers are made from materials that are certified compostable, suitable for microwaving and capable of withstanding temperatures of between -10°C and +120°C. The containers come either with a clever, transparent, recycled PET lid that ensures your creations remain on show at all times. Or with a stunning, microwaveable safe, PP lid that changes the product in a fully heat resistant solution. These products are ideal for takeaway meals.

The world is constantly changing. Sabert reflects these changes by ensuring that it meets new environmental protection requirements.

Leak-proof

The BePulp container and lid feature a unique clip system that offers the best leak protection on the market. The container has no impact on the flavour of your food and keeps your dishes fresh at all times.

NEW PRODUCTS

CPLA CUTLERY

Here at Sabert, we have developed a range of cutlery (knives, forks, spoons and teaspoons) made from CPLA (crystallised poly lactic acid), a biodegradable, 100% compostable material that can withstand temperatures of up to 85°C.

The global appetite for organic products is still stronger than ever. The rising popularity of organic foods echoes a more sustainable approach to the entire production process, across all market segments. This is reflected in the "green" fast-food sector, for example, where there is rising demand for environmentally friendly packaging.

NEW

OCTA PLATE

At Sabert we keep our eyes wide open on the fast moving packaging market we are in, we consistently offer new solutions to enable our foodservice customers to embrace the new trends as far as possible. The new BePulp OCTA plate suits any salad to be eaten in, to be taken out or to be delivered. It has a convenient and stylish design that allows outstanding and colourful presentation of salads as if on a plate. Furthermore, it is a table ready plate, easy to eat from.

90%

62%

MARKET TREND

A strong organic sector

Over the last nine years, the organic sector has grown by an average of 14% per year. **Some 90% of French consumers now eat organic products occasionally, and 62% do so at least once a month.** Just 12% of French people never eat organic foods, compared with 25% in 2013 and 46% in 2003.

RECYCLED PET

Sabert guarantees 50% of recycled materials in its PET production

Sabert has obtained EFSA (European Food Safety Authority) authorisation to implement the rPET process, using Post-Consumer Recycled (PCR) PET. This cutting-edge technology is widely recognised as the best way to recycle PCR PET. PCR percentage goes to **70%** to manufacture the transparent products. The black products contains **80%** of recycled materials.

CHILLED FOOD SOLUTIONS

Changes to thinking with regard to our diet are very much underway and the desire for fresh products, especially salads, is increasing strongly. Today we want a healthy and... practical diet! Our range of complete and specific solutions allows attractive and inviting visibility of your fresh preparations with a large choice of shapes and sizes in our diversified offer.

Consumers are increasingly looking for quick and healthy snacking solutions. This has led to a rise in the popularity of fresh, pre-prepared fruit, and salad meals are now becoming the lunch of choice for many people throughout Europe. Sabert has developed a range of solutions that reflect these new habits.

Innovative menus demand a new approach to packaging. Explore our range of chilled and fresh solutions!

SEE P. 30

FUNCTIONAL

Sabert's transparent bowls are the perfect way to showcase the freshness of any salad. Like all other Sabert products, they are easy to stack and come with a tight-fitting lid.

NEW PRODUCTS

RECTANGULAR SURESTRIP

These trays come with our SureStrip technology – a tab that surrounds the lid and provides added security. The tab cannot be removed without damaging the container – the ultimate in peace of mind for consumers.

SureStrip™
Tamper-resistant

SEE P. 35

IMPRESSION BOWLS

The Sabert Impression Bowls are designed to stay in the hand and suitable for any salad to go. The transparency of the solution allows the time-poor consumer to see at a glance all ingredients of the salad meal. Furthermore, the concave shape enables work with layers to give a great filling impression.

SEE P. 34

MARKET TREND

chilled food continue to gain popularity

Salad meals are now becoming more popular than ready-meals and sandwiches in France, and are now the number one solution for consumers looking

to eat on the go. Growth in the prepared chilled food market is stronger in the UK than anywhere else in the world. Sales of freshly prepared fruit and vegetable takeaway meals now top €1.344 billion. In the Netherlands, salad meal sales rose by 8.5% last year alone.

(source: l'Atelier BNP Paribas / IRI and LSA conso)

PLATTERED FOOD SOLUTIONS

To showcase your buffets food and show off your culinary creativity - this is the main purpose of the Sabert Platter collection. We have done our best to imagine all possible solutions - a choice rich in shapes, sizes and colours which will meet all your needs and those of your clients.

These platters come in a wide range of sizes, from single to multi-compartment versions with space for full meals (starter right through to dessert). They are also made to the very highest quality standards. In short, they are the best solution for transporting and presenting your creations with a personal touch. Here at Sabert, we leave nothing to chance. Our aim is to deliver products that can be taken directly from storage to the table, with an attractive appearance and ingenious design – just like our ultra-secure clip-on lid systems.

Sabert offers the widest range of platter solutions on the market for transporting and presenting all your creations.

NEW

DELI PLATTERS

SEE P. 52

Our range of Deli platters are perfect for creating stunning presentations served directly at the table. They feature integrated handles that make them easy to carry, while the rPET lid fixes firmly to the base, preventing any risk of leakage.

PAGODA RANGE

SEE P. 51

This range of products is ideal for presenting sushi – a culinary trend that is in fashion. These platters are also perfect for nibbles and miniature desserts. They are cleverly designed for maximum food visibility and hand hold. With their understated yet elegant appearance, they are guaranteed to catch the eye and focus attention firmly on the contents. These platters come in three sizes.

There's a lid for every platter!

Almost all of our platters come with their own lid, so you can store and transport your dishes with peace of mind. All of our lids are listed by category in the lid section of our catalogue.

MARKET TREND

Less time for lunch

As our working lives become increasingly busy, there is a growing trend for lunchtime meetings and employees eating at their desks. Many time-pressured workers now prefer to have ready-made lunches delivered to their workplace instead of making the arduous trip to a restaurant or fast food outlet, where they will inevitably have to wait in lengthy queues to buy their sandwich or stand around until a table becomes free. **Today, the average lunch break is just 22 minutes long!**

Marbled, golden and silver effect

Our high-quality lamination process delivers a genuinely life-like result. What's more, we offer the widest choice of colours, shapes and dimensions on the market.
